

PADI ASIA PACIFIC

Position Vacant: Quality Management Consultant

We are seeking a Quality Management Consultant to join our expert Quality Management team located at PADI Asia Pacific in Sydney, Australia.

The Quality Management Consultant is the primary contact with the PADI Members for all quality and risk management issues and in the interpretation of PADI standards and procedures.

This role will assist the Members in understanding PADI educational system, training programs, standards and philosophy.

You will be interacting with Members and non-members with regard to quality management issues and reporting incidents, and developing and delivering quality and risk management programs.

Position Requirements:

- PADI IDC Staff Instructor or higher with minimum four years teaching experience (Course Director preferred)
- Relevant tertiary qualifications (preferred)
- Strong administration, organizing and prioritising skills and analytical skills
- Experience liaising with government bodies and experience in legal/legislative area is desirable
- Strong business writing skills and ability to read and interpret documents such as incident reports, legal documents, business policies and procedures
- Ability to speak effectively before groups of people including Members and non-members
- Ability and willingness to travel when required

You must have appropriate citizenship, residency or visa with the right to work in Australia.
